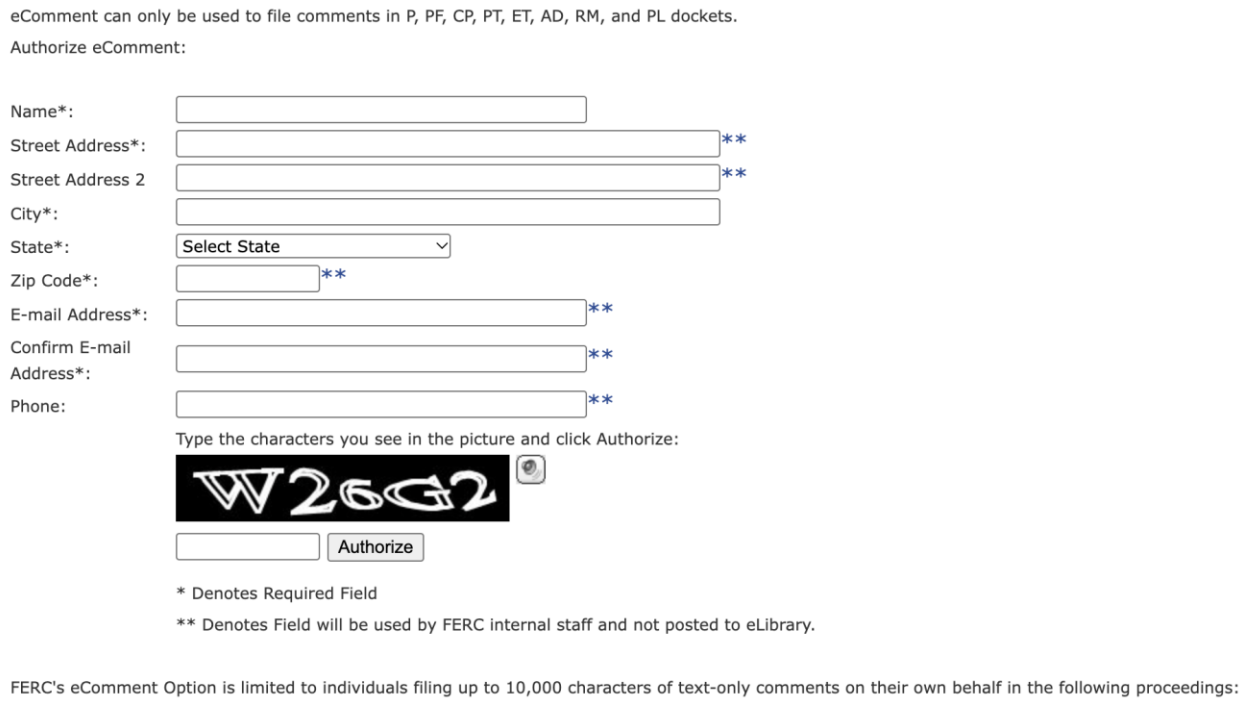
This document is to guide you through the process of commenting on a FERC Dockett. In this case in November 2026, this concerns the Policy changes proposed which streamline the Liquid Natural Gas (LNG) project approval process and which remove the requirement for toxic air dispersion modeling.

FERC also provides instructions here.

How to do it

Go to the link here for the e-comment page. It should look like this:



eComment can only be used to file comments in P, PF, CP, PT, ET, AD, RM, and PL dockets.
Authorize eComment:

* Denotes Required Field
** Denotes Field will be used by FERC internal staff and not posted to eLibrary.

FERC's eComment Option is limited to individuals filing up to 10,000 characters of text-only comments on their own behalf in the following proceedings:

Now go ahead and fill in your information and an email address that you will be able to check for the link to comment.

Submit, and look for the email from FERC. It should look like this.

eComment Request

Create your comments in a word or text file so you can copy/paste them into the eComment text box.

You cannot use eComment to submit comments on behalf of an organization. Instead, use the eFiling system for these types of filings.

To continue with the eComment process, please click the following link:

If you have any questions, please contact FERC at:

E-Mail: ferconlinesupport@ferc.gov mailto:ferconlinesupport@ferc.gov (do not send filings to this address)
Voice Mail: 866-208-3676.

Click the link and you will be on your comment page. Next, you need to become specific to which docket (i.e. which policy change) you are commenting on.

The Dockets of concern are:

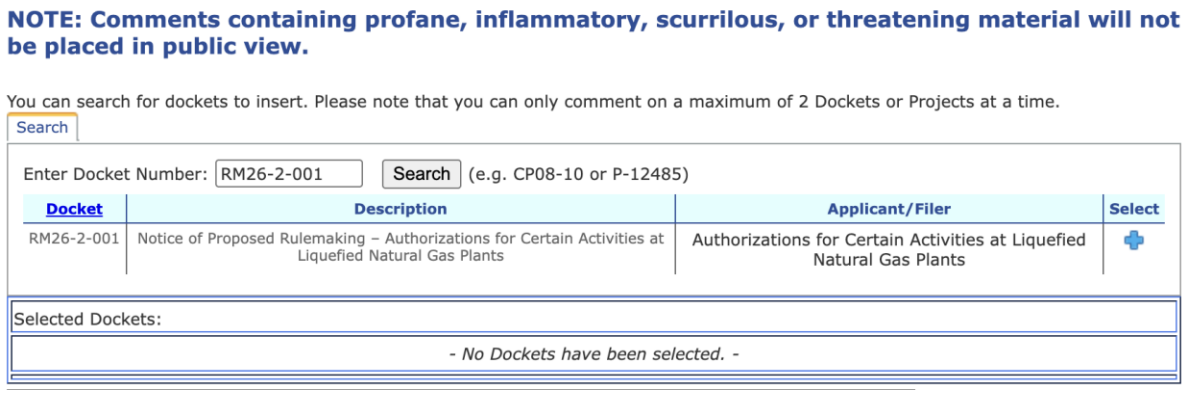
RM26-2-001

(new authorization program “accelerating liquefied natural gas (LNG) infrastructure development”)

PL26-3-000

(removing the requirement for “air dispersion modeling”)

Paste the number above for the docket you will comment on into the box and click search.



Now you have to click the little plus to add this docket to your comment.

NOTE: Comments containing profane, inflammatory, scurrilous, or threatening material will not be placed in public view.

You can search for dockets to insert. Please note that you can only comment on a maximum of 2 Dockets or Projects at a time.

Search

Enter Docket Number: RM26-2-001 Search (e.g. CP08-10 or P-12485)
