

2021 Georgia Scavenger Hunt to the Sea

Handbook Of Larval Amphibians Of The United States And Canada

by Ronald Altig, Roy W. McDiarmid

(on hoopla)

Generously illustrated, this essential handbook for herpetologists, ecologists, & naturalists features comprehensive keys to eggs, embryos, salamander larvae, and tadpoles; species accounts; a glossary of terms; and an extensive bibliography. The taxonomic accounts include a summarization of the morphology and basic natural history, as well as an intro to published information for each species.

Field & Stream Skills Guide: Fishing

by T. Edward Nickens

(on hoopla)

With practical advice for fly-fishing, bait casting, spinning and even noodling, this handy guide offers over 100 hints on gear, knots, boating, and finding where even the stealthiest fish are hiding. Fishermen from the dedicated weekend angler to summer dabblers rely on Field & Stream for the best insider information, and this book delivers.

Saving The Georgia Coast

by Paul Bolster

(on hoopla)

With this book, Paul Bolster narrates the politics of the times and brings to life the political leaders and the coalition of advocates who led Georgia to pass the most comprehensive protection of marshlands along the Atlantic seaboard.

Saving the Georgia Coast brings to light the intriguing and colorful characters who formed that coalition: wealthy island owners, hunters and fishermen, people who made their home on the coast, courageous political leaders, garden-club members, clean-water protectors, and journalists.

Chattahoochee River User's Guide

by Joe Cook

(on hoopla)

The Chattahoochee River is a mecca for recreation, a priceless natural resource that provides water and power for a great number of Georgia's citizens, and an essential component to the region's ecosystem. As public interest in exploring and protecting Georgia's rivers grows, so too has the demand for clear and elegant guides to our rivers. This book is the latest in a series of river guides from Georgia River Network & the University of Georgia Press that aims to meet that demand.

Marshes And Swamps! With 25

Science Projects for Kids

by J.K. O'Sullivan, Tom Casteel

(on hoopla)

Kid scientists will learn to observe and collect data in swamps and marshes and explore wetlands through hands-on STEM projects that deepen their understanding of these special places. Wetlands host a wide variety of plant & animal species. Marshes and swamps filter pollutants, prevent erosion, and serve as barriers for flooding. Wetlands are living laboratories for scientists and students who want to know more about erosion, water quality, aquatic animals, and vegetation.

Living Beaches Of Georgia And The

Carolinas

by Blair & Dawn Witherington

(on hoopla)

These beaches foster unique life-forms and accept beguiling castaways from a vast marine wilderness. Living Beaches of Georgia and the Carolinas satisfies a beachcomber's curiosity within a comprehensive yet easily browsed guide covering beach processes, plants, animals, minerals, and manmade objects. The guide is written in a familiar style and is illustrated with distribution maps and over a thousand color photos.
